ALL SEASON FLYER

WWW.WRIGHTFLYERS.ORG

November e-Blast

by Victor Madison

This is the monthly e-Blast for the Wright Flyers Club. It contains a quick summary of events that occurred during the month as well as other noteworthy items.

Next Meeting

There will be no meeting in November and December. The next meeting will be January 30, 2018 at the Hernwood Elementary School. This will be the last club meeting in 2017.

Aircraft Maintenance

All RC airplanes need checking over now and then. The Winter season is a great time for preventative maintenance check. Some checks include: Hinges, Wing Mounts, Servos, Landing Gear, Fuels Systems and flight batteries.

Of course, you can wait for the plane to let you know maintenance has been put off too long by shedding a part that is crucial to staying in the air.

Membership Renewal

We have completed another flying season and it is time, once again, for membership renewals. Membership applications are available on the Wright Flyers web site. Please send in your 2018 Membership application and \$75 renewal fee to

Andrew Yurkovich
109 Taunton Ave

Winter RC Flying

In my early RC Flying days, I made every effort to get out and fly as much as possible, no matter what the weather conditions. Still have my *All Season Flyer* patch from the AMA to prove my enthusiasm.

However, my old bones don't take kindly to the cold temperatures and therefore, I let the younger club members "enjoy" the use of the field during the Winter.

If you do go out flying, please be careful in your travels and flight time at the field. On bright sunny days, break out the Foster Grant sunglasses.
